

PLUMBER INTER-GALACTIC CASE FILE — PCF-CASE-060

Subject:	Sunder
Classification:	Human (Weapons Dealer)
Domain:	Alien Weapons Smuggling
Location:	Plumber Impound Yard 9
Incident No.:	PCF-3414

OVERVIEW

This file documents a Plumber field response concerning Sunder, logged under a alien weapons smuggling classification at Plumber Impound Yard 9. The report below summarizes the chronological action log, subject profile notes, and technical appendix compiled by the responding unit.

SUBJECT PROFILE

Threat assessments for Sunder are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

Prior documentation on Sunder indicates a pattern of activity concentrated around Plumber Impound Yard 9 and comparable sites.

No unusual physiological readings were noted for Sunder during this incident beyond what is typical for prior encounters of this classification.

Sunder is classified under Plumber records as Human (Weapons Dealer), associated primarily with incidents involving alien weapons smuggling.

INCIDENT TIMELINE

By 07:45, a Plumber response unit had been dispatched to assess the situation at Plumber Impound Yard 9.

By 18:30, the situation had been assessed as stable enough to proceed with standard documentation protocol.

At approximately 18:30, direct visual confirmation of Sunder was logged by the responding unit.

At 21:15, containment procedures appropriate to a alien weapons smuggling scenario were initiated.

At 07:45, a secondary team arrived to assist with cleanup and evidence cataloguing.

Shortly after 18:30, communications with the response team were briefly disrupted, consistent with prior incidents of this type.

TECHNICAL DATA

No incident-specific technical code was generated for this report; standard monitoring equipment was used without configuration changes.

PROCEDURAL NOTES

This report is filed in accordance with Plumber Standard Operating Procedure 4.2, which requires a full incident summary, a subject profile, a chronological action log, and a technical appendix for any field event involving extraterrestrial technology, biology, or personnel.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

Cross-referencing between case files is standard practice and should not be interpreted as an indication of a connected investigation unless explicitly noted in the Cross-Reference section below.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

APPENDIX

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

Appendix data collected during this incident has been archived alongside standard sensor logs and is available on request through the Central Depot records office.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

Historical note: the Plumber archival system was migrated from the legacy Ectonurite ledger format to the current digital case-file format following the Central Depot reorganization. Older references may use deprecated file prefixes.

Appendix data collected during this incident has been archived alongside standard sensor logs and is available on request through the Central Depot records office.

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

Cross-referencing between case files is standard practice and should not be interpreted as an indication of a connected investigation unless explicitly noted in the Cross-Reference section below.

Equipment used during this response was inspected post-incident and returned to standard rotation without flagged defects.

This document was generated by the Plumber Case Management System and reviewed by a duty officer prior to archival. Any discrepancies should be reported through standard channels rather than amended directly in the archive.

Prior documentation on Sunder indicates a pattern of activity concentrated around Plumber Impound Yard 9 and comparable sites.

Sunder is classified under Plumber records as Human (Weapons Dealer), associated primarily with incidents involving alien weapons smuggling.

Routine archival review confirms that this file meets retention requirements under Plumber Directive 9, Section 3, governing long-term storage of field incident documentation.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

All field agents are reminded that classification levels on this document restrict distribution to personnel who currently carry active Plumber Badge credentials. Handling instructions are listed in the cover section of the Plumber Operations Manual, Revision 12.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

No unusual physiological readings were noted for Sunder during this incident beyond what is typical for prior encounters of this classification.
