

PLUMBER INTER-GALACTIC CASE FILE — PCF-CASE-051

Subject:	Psyphon
Classification:	Gourmand
Domain:	Black-Market Tech Trafficking
Location:	Undertown Market Row
Incident No.:	PCF-3128

OVERVIEW

This file documents a Plumber field response concerning Psyphon, logged under a black-market tech trafficking classification at Undertown Market Row. The report below summarizes the chronological action log, subject profile notes, and technical appendix compiled by the responding unit.

SUBJECT PROFILE

Psyphon is classified under Plumber records as Gourmand, associated primarily with incidents involving black-market tech trafficking.

Prior documentation on Psyphon indicates a pattern of activity concentrated around Undertown Market Row and comparable sites.

Threat assessments for Psyphon are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

No unusual physiological readings were noted for Psyphon during this incident beyond what is typical for prior encounters of this classification.

INCIDENT TIMELINE

By 23:02, the situation had been assessed as stable enough to proceed with standard documentation protocol.

At 21:15, the incident was formally closed pending review by the Central Depot oversight committee.

Shortly after 23:02, communications with the response team were briefly disrupted, consistent with prior incidents of this type.

At 13:40, field sensors first registered anomalous activity in the vicinity of Undertown Market Row.

At approximately 21:15, direct visual confirmation of Psyphon was logged by the responding unit.

At 21:15, containment procedures appropriate to a black-market tech trafficking scenario were initiated.

TECHNICAL DATA

No incident-specific technical code was generated for this report; standard monitoring equipment was used without configuration changes.

PROCEDURAL NOTES

Cross-referencing between case files is standard practice and should not be interpreted as an indication of a connected investigation unless explicitly noted in the Cross-Reference section below.

Routine archival review confirms that this file meets retention requirements under Plumber Directive 9, Section 3, governing long-term storage of field incident documentation.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

APPENDIX

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

Equipment used during this response was inspected post-incident and returned to standard rotation without flagged defects.

Appendix data collected during this incident has been archived alongside standard sensor logs and is available on request through the Central Depot records office.

Threat assessments for Psyphon are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

Historical note: the Plumber archival system was migrated from the legacy Ectonurite ledger format to the current digital case-file format following the Central Depot reorganization. Older references may use deprecated file prefixes.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

Equipment used during this response was inspected post-incident and returned to standard rotation without flagged defects.

This report is filed in accordance with Plumber Standard Operating Procedure 4.2, which requires a full incident summary, a subject profile, a chronological action log, and a technical appendix for any field event involving extraterrestrial technology, biology, or personnel.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

All field agents are reminded that classification levels on this document restrict distribution to personnel who currently carry active Plumber Badge credentials. Handling instructions are listed in the cover section of the Plumber Operations Manual, Revision 12.

This document was generated by the Plumber Case Management System and reviewed by a duty officer prior to archival. Any discrepancies should be reported through standard channels rather than amended directly in the archive.
