

PLUMBER INTER-GALACTIC CASE FILE — PCF-CASE-099

Subject:	Psyphon
Classification:	Gourmand
Domain:	Black-Market Tech Trafficking
Location:	Undertown Market Row
Incident No.:	PCF-3727

OVERVIEW

This file documents a Plumber field response concerning Psyphon, logged under a black-market tech trafficking classification at Undertown Market Row. The report below summarizes the chronological action log, subject profile notes, and technical appendix compiled by the responding unit.

SUBJECT PROFILE

Threat assessments for Psyphon are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

Prior documentation on Psyphon indicates a pattern of activity concentrated around Undertown Market Row and comparable sites.

Psyphon is classified under Plumber records as Gourmand, associated primarily with incidents involving black-market tech trafficking.

No unusual physiological readings were noted for Psyphon during this incident beyond what is typical for prior encounters of this classification.

INCIDENT TIMELINE

At 11:05, containment procedures appropriate to a black-market tech trafficking scenario were initiated.

By 07:45, the situation had been assessed as stable enough to proceed with standard documentation protocol.

At 03:12, a secondary team arrived to assist with cleanup and evidence cataloguing.

At 21:15, field sensors first registered anomalous activity in the vicinity of Undertown Market Row.

By 18:30, a Plumber response unit had been dispatched to assess the situation at Undertown Market Row.

At approximately 11:05, direct visual confirmation of Psyphon was logged by the responding unit.

TECHNICAL DATA

No incident-specific technical code was generated for this report; standard monitoring equipment was used without configuration changes.

PROCEDURAL NOTES

This document was generated by the Plumber Case Management System and reviewed by a duty officer prior to archival. Any discrepancies should be reported through standard channels rather than amended

directly in the archive.

This report is filed in accordance with Plumber Standard Operating Procedure 4.2, which requires a full incident summary, a subject profile, a chronological action log, and a technical appendix for any field event involving extraterrestrial technology, biology, or personnel.

Cross-referencing between case files is standard practice and should not be interpreted as an indication of a connected investigation unless explicitly noted in the Cross-Reference section below.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

APPENDIX

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

Appendix data collected during this incident has been archived alongside standard sensor logs and is available on request through the Central Depot records office.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

Routine archival review confirms that this file meets retention requirements under Plumber Directive 9, Section 3, governing long-term storage of field incident documentation.

Equipment used during this response was inspected post-incident and returned to standard rotation without flagged defects.

Threat assessments for Psyphon are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

Prior documentation on Psyphon indicates a pattern of activity concentrated around Undertown Market Row and comparable sites.

All field agents are reminded that classification levels on this document restrict distribution to personnel who currently carry active Plumber Badge credentials. Handling instructions are listed in the cover section of the Plumber Operations Manual, Revision 12.

Historical note: the Plumber archival system was migrated from the legacy Ectonurite ledger format to the current digital case-file format following the Central Depot reorganization. Older references may use deprecated file prefixes.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.
