

PLUMBER INTER-GALACTIC CASE FILE — PCF-CASE-037

Subject:	Budget and Procurement Office
Classification:	N/A
Domain:	Quarterly Supply Procurement
Location:	Plumber Finance Annex
Incident No.:	N/A

OVERVIEW

This file documents a Plumber field response concerning Budget and Procurement Office, logged under a quarterly supply procurement classification at Plumber Finance Annex. The report below summarizes the chronological action log, subject profile notes, and technical appendix compiled by the responding unit.

SUBJECT PROFILE

Prior documentation on Budget and Procurement Office indicates a pattern of activity concentrated around Plumber Finance Annex and comparable sites.

No unusual physiological readings were noted for Budget and Procurement Office during this incident beyond what is typical for prior encounters of this classification.

Threat assessments for Budget and Procurement Office are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

Budget and Procurement Office is classified under Plumber records as N/A, associated primarily with incidents involving quarterly supply procurement.

INCIDENT TIMELINE

Shortly after 11:05, communications with the response team were briefly disrupted, consistent with prior incidents of this type.

At 09:20, containment procedures appropriate to a quarterly supply procurement scenario were initiated.

At 18:30, field sensors first registered anomalous activity in the vicinity of Plumber Finance Annex.

By 11:05, the situation had been assessed as stable enough to proceed with standard documentation protocol.

By 11:05, a Plumber response unit had been dispatched to assess the situation at Plumber Finance Annex.

At approximately 18:30, direct visual confirmation of Budget and Procurement Office was logged by the responding unit.

TECHNICAL DATA

No incident-specific technical code was generated for this report; standard monitoring equipment was used without configuration changes.

PROCEDURAL NOTES

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

Routine archival review confirms that this file meets retention requirements under Plumber Directive 9, Section 3, governing long-term storage of field incident documentation.

This document was generated by the Plumber Case Management System and reviewed by a duty officer prior to archival. Any discrepancies should be reported through standard channels rather than amended directly in the archive.

Cross-referencing between case files is standard practice and should not be interpreted as an indication of a connected investigation unless explicitly noted in the Cross-Reference section below.

APPENDIX

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

Equipment used during this response was inspected post-incident and returned to standard rotation without flagged defects.

Prior documentation on Budget and Procurement Office indicates a pattern of activity concentrated around Plumber Finance Annex and comparable sites.

No unusual physiological readings were noted for Budget and Procurement Office during this incident beyond what is typical for prior encounters of this classification.

This report is filed in accordance with Plumber Standard Operating Procedure 4.2, which requires a full incident summary, a subject profile, a chronological action log, and a technical appendix for any field event involving extraterrestrial technology, biology, or personnel.

Historical note: the Plumber archival system was migrated from the legacy Ectonurite ledger format to the current digital case-file format following the Central Depot reorganization. Older references may use deprecated file prefixes.

Appendix data collected during this incident has been archived alongside standard sensor logs and is available on request through the Central Depot records office.

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.

Threat assessments for Budget and Procurement Office are periodically revised; agents should consult the most recent Plumber species or subject bulletin before field engagement.

All field agents are reminded that classification levels on this document restrict distribution to personnel who currently carry active Plumber Badge credentials. Handling instructions are listed in the cover section of the Plumber Operations Manual, Revision 12.

Where applicable, technical reference codes noted in this document are valid only for the specific incident described herein and are superseded by any later-dated report referencing the same subject.

Agents completing this form should verify subject identification against the most recent Plumber species registry before submission, as taxonomic reclassifications occur periodically as new data becomes available.

This appendix section is provided for completeness in accordance with archival formatting requirements and does not contain information beyond what is summarized in the main report body.

No additional casualties, injuries, or civilian exposures were reported in connection with this incident.
